Undeclared cars used by the wife of the head of a Ministry of Internal Affairs service centre, registered to the father-in-law

Journalistic investigation · period: ~2019—2024 · made public: 3 Dec 2024

Alleged: US\$60,000

According to a Bihus.Info investigation, Instagram posts by the wife of O. Boiko, head of Territorial Service Centre No. 8041, show that she uses cars that are not in the official's declarations: probably a BMW X3 (from USD 50 thousand), a Volkswagen ID.4 (from USD 30 thousand) and a BMW iX3 (from USD 60 thousand). It was exactly such cars that were registered new to the official's father-in-law in 2019—2024. The episode amount is the approximate market value of the newest car (BMW iX3) as estimated by journalists, not the transaction price; journalists did not give a total amount. The official himself uses a Toyota Land Cruiser in Kyiv registered to his father and lives in someone else's apartment. In a comment, he stated that his wife lives in Chernivtsi and that he declared what he knew. Journalists also recalled that in 2023 the National Police of Ukraine investigated proceedings on an artificial shortage of queue tickets at this service centre involving an unnamed head and administrators; only an intermediary received a verdict — this is not included in this episode. After the report, the Ministry of Internal Affairs announced a change of the service centre's management and contacted the NACP. This is a journalistic investigation: as far as is known, no criminal proceedings have been registered regarding these facts and no suspicions have been announced.
