Private laboratory “Dobrobut-Lykylab” linked to the circle of the head of the State Service on Medicines, and orders from the State Service on Medicines

Journalistic investigation · period: ~2023—2025 · made public: 25 Feb 2025

Alleged: ₴50,000,000

Pre-trial investigation body: National Anti-Corruption Bureau of Ukraine

According to Bihus.Info investigations (February and December 2025), the «Dobrobut-Likylab» laboratory, registered in spring 2023 to nominee owners, received accreditation from the State Service on Medicines in July 2023 and within a week began receiving orders for drug testing; according to the journalists, since its creation it has earned over UAH 50 million. An investor in the laboratory told the journalists that the idea of creating it was proposed by Roman Isaienko, and an SBU employee was involved in its activities; the journalists published recordings of the participants' conversations. Isaienko denied involvement. After the publication NABU opened criminal proceedings and in November 2025 conducted searches at the State Service on Medicines; no notices of suspicion in this episode have been made public. The amount of UAH 50 million is the journalists' estimate of the laboratory's turnover, not an amount of losses established by investigators. There is no verdict.

Indictment in court · period: ~2022—2024 · made public: 25 Feb 2025

Alleged: US\$300,000

Pre-trial investigation body: National Anti-Corruption Bureau of Ukraine

Charges: ч. 2 ст. 366-2 КК України

According to NABU and SAPO, while holding a category «A» civil service position, Roman Isaienko did not list in his annual declarations for 2022–2024 a residential house in Kyiv Oblast bought in January 2022 and registered to his wife's parents, which was actually used by him and his wife.
